## signature gin & tonic

Polish Forest Gin is the first 100% Polish craft gin. Native ingredients that we can stroll upon while walking through the forest were used for its production. We will not find ingredients such as lemon or cardamom. This gin is made of the best our nature has to offer, that is juniper, pine, bird cherry, chokeberry, and many more surprising, yet all native ingredients.

Polish Forest Gin is a gin in which the spirit of the Polish forest is bottled.
